(c) what is Government's reaction thereto?

THE MINISTER OF STATE IN THE MINISTRY OF COMMERCE (SHRI P. R. DAS MUNSHI): (a) and (b) According to the Press Statement issued on 19th May 1989, the FICCI President proposed some changes such as Modification in Foreign Exchange Regulations Act (FERA) to ensure greater exports of products, services and projects, facilitate greater flow of foreign investment and to step up India's joint ventures abroad.

(c) No formal proposal enlisting the changes suggested in the meeting held on the 19th May, 1989 has been received from FICCI.

Refusal by USR to Export Pig Iron to India

2102. SHRI DIPEN GHOSH: Will the Minister of COMMERCE be pleased to state:

(a) whether it is a fact that USSR has refused export over 2.3 tonne of foundry-grade pig iron as India failed to export alumina to that country as per the bilateral trade agreement:

(b) whether Soviet Government lodged any complaint in this regard; and

(c) if so, what are the details thereof?

THE MINISTER OF STATE IN THE MINISTRY OF COMMERCE (SHRI P. R. DAS MUNSHI): (a) to (c) The Indo-Soviet Trade Plan does not provide for any direct link up between individual items of import and individual items of export and the imports and the exports proceed independently. In the Trade Plan for 1989, alumina is included in the export list and pig iron without specifying the grade is included in the list of imports. While the Trade Plan is drawn up at the level of Government, the actual contracting takes place at the level of various organisations depending on relevant factors like offers for supply, specifications, price, etc. Some contracts for export of alumina have already been concluded. Similarly some contracts for import of basic grade pig iron have already been concluded. Both the Governments jointly endeavour to ensure that the Trade Plan is implemented. As the Trade Plan which is for the calendar year 1989 as a whole, is presently in progress, the exact position of implementation will become clear only after the year is over and the trade figures become available.
